PROFILE

Full-time UI/UX engineer and fourth-year computing undergraduate with one year of industry experience. I begin with research, translate insights into clear information architecture and user flows, and deliver high-fidelity prototypes with developer-ready specs. I focus on accessible, efficient interfaces that improve task completion and user satisfaction. Recognised for careful problem-solving, accuracy, and reliable delivery.

EXPERIENCE

UI/UX Engineer (Full-time) - HashBaze
Sri Lanka • Remote | Jun 2025 - Present
